

1U12-PDU2

POWER DISTRIBUTION UNIT

DESCRIPTION

1U12-PDU2 is a military standards compliant Power Distribution Unit which provides independent protection at different predefined levels to each load.

FEATURES

- Input voltage: 200VAC - 245VAC, 50/60Hz,
- Maximum total current: 25A,
- Outputs current limits;
 - 9 pcs 5A,
 - 2 pcs 10 A,
 - 1 pcs 15A,
 - 2 pcs bypass outputs.
- Input connector: IEC C20 Type.
- Output connector: IEC C13 Type.
- Device Height: 1U (43.6mm).
- Mechanical Properties;
 - Depth: 394mm,
 - Front panel width: 482.4mm,
 - Case width: 424mm,
 - Connector locking interface,
 - Rail mountable construction.
- Compliance to MIL-STD-810G.
- Military standards compliant design.
- Optional customization.
